

Fill in the 5 sections on this page with information from or about the article. Be neat and use color.

Name: _____ Date: _____ Class: _____

1. Fill in the titles of the articles and the source:

Title: _____

Source: _____

2. Is this source valid and reliable? Why or why not?:

3. Complete a 5 sentence summary of both articles (combine the information into a single summary):

4. In the open space around your summary complete the following: create three symbols of ideas presented in the articles to show the relationships between rockets and the science studied in class. Be creative and use color!

5. Around the outside of the page make a creative border that includes at least five features of rockets and why these features are important. The border should include text and may also include pictures or symbols relevant to the articles.
